## NOTICES

Unless otherwise stated, all information and explanatory notes in this report refer to the second quarter of 2021 and 2020, i.e. the three-month period from April 1 to June 30 (Q2), and all percentage changes refer to the respective year-on-year comparison. Due to rounding, totals and percentages presented in this report may not add up precisely to the totals provided.

## BUSINESS DEVELOPMENT - SIGNIFICANT EVENTS

### COVID-19-pandemic

Protective measures and activities for our employees and customers remain at the focus of our actions in the context of the COVID-19-pandemic. CompuGroup Medical supports our customers indirectly or directly in overcoming the challenges of the pandemic.

In the mid-term, we continue to see increased growth opportunities as the result of the risen and sustainable readiness to use digital solutions in the healthcare sector

### Electronical vaccination certificate (Impfnachweis) in Germany

At the end of May, the German Federal Ministry of Health published a tender for the creation of a certificate module for primary systems to issue COVID-19 certificates. CGM, which serves over 60,000 physicians in Germany with its physician information systems, implemented this module for its physician information systems in June 2021 and made it available to all physicians free of charge. Patients can then view these COVID-19 certificates using a QR code on an app commissioned by the German Federal Ministry of Health, such as the Corona warning app.

### ePA in Germany

The electronic health record (elektronische Patientenakte - ePA) has already been promoted from the statutory health insurances side since the beginning of the year, by making the ePA available to the insured persons. The physician information systems of CGM support the filling out of the ePA with the quarterly update in June/July. The module allows a simple data transfer from the physician information system to the ePA, a view of the released documents and also a data transfer from the ePA to the index card of the physician information system.

### Positive business development in the Hospital information systems

In the past quarter HIS segment achieved a very positive business development with regard to the further rollout of CGM Clinical. In addition, the Hospital Futures Act (Krankenhauszukunftsgesetz) is providing positive momentum with numerous customer contacts, projects, and several orders. With the Graubünden Conatonal Hospital in Switzerland and further 10 hospitals in Spain in the Murcia region, additional new customers were acquired.

### Telematics Infrastructure

In July, CompuGroup Medical received the approval from gematik for the KoCoBox MED+ as a connector for the electronic patient record (elektronische Patientenakte - ePA). Once the ePA upgrade has been installed, the KoCoBox Med+ will support the electronical patient record application and the convenience signature for all users connected to the Telematics Infrastructure via a the KoCoBox Med+. The rollout will take place in the second half of the year and will provide the next important digitalization step in healthcare.

By the end of the second quarter, approximately 9,000 installations of the KIM module (Communication in medicine - KIM) had been carried out. KIM enables barrier-free, secure, and confidential communication between all service provider institutions and payers in the German health sector.

### **Additional growth through acquisitions**

In June, CompuGroup Medical acquired VISUS Health IT GmbH, one of the leading providers of picture archiving and communication systems (PACS) and Healthcare Content Management in Germany. The main products of VISUS group are JiveX Enterprise PACS, a leading PACS solution for hospitals and outpatient facilities, JiveX Healthcare Content Management, a state-of-the-art vendor-neutral archiving solution, and JiveX Healthcare Connect, a communication solution for medical data. Today, VISUS group counts more than 1,500 facilities in the inpatient and outpatient sectors among its customers.

The acquisition of Aatlanta group in France, announced in March, was completed at the end of June 2021. Aatlanta group is a software provider for administrative and medical management for healthcare professionals.

The other acquisitions are described in more detail in the section on company acquisitions and disposals.

### **Share buyback**

CompuGroup Medical conducted a share buyback program from February 26 to April 29, 2021. The buyback of shares via the stock exchange (Xetra trading on the Frankfurt Stock Exchange) is performed by a mandated securities bank. With this CompuGroup Medical made use of the authorization given by the Annual General Meeting on May 15, 2019, to repurchase treasury shares. During the period between February 26 and April 29, 2021, 1,000,000 shares in total have been repurchased at an average rate of EUR 71.25.

Compared to the prior year quarter, revenues in the second quarter increased by mEUR 60.9 (34 %) to mEUR 240.8. Organic growth in the second quarter of 2021 amounts to 10.1 % year-on-year, which is also attributable to higher revenues in connection with the Telematics Infrastructure. Excluding the revenue growth of the Telematics Infrastructure, organic growth amounts to 5.6 % in the quarter.

Compared to same period of the prior year, revenues in the first half of 2021 increased by mEUR 106.7 (29 %) to mEUR 469.8. Organic growth in the first half of 2021 amounts to 7.5 % compared to the prior year. Excluding the revenue growth of the Telematics Infrastructure, organic growth in this period amounts to 3.5 %.

Adjusted consolidated earnings before interest, taxes, depreciation, and amortization (adjusted group EBITDA) for the second quarter amounts to mEUR 51.0 (prior year: mEUR 44.6) with an adjusted EBITDA margin of 21 % (prior year: 25 %). The margin decrease is due to the announced investments in further growth.

Adjusted group EBITDA for the first half of 2021 amounts to mEUR 97.6 (prior year: mEUR 88.1) with an adjusted EBITDA margin of 21 % (prior year: 24 %). Here too, the decline in margin is attributable to the announced investments in further growth.

Adjusted group EBITDA is derived from reported EBITDA as shown below:

kEUR	01.04.- 30.06.2021	01.04.- 30.06.2020	01.01.- 30.06.2021	01.01.- 30.06.2020

<b>EBITDA ADJUSTED</b>	<b>51,034</b>	<b>44,637</b>	<b>97,565</b>	<b>88,114</b>

The main developments in operating expenses are:

- Expenses for goods and services purchased increased by mEUR 13.1 in the second quarter of 2021 compared to the prior year. This is mainly due to increased expenses resulting from acquisitions in the amount of mEUR 7.2. The gross margin ((Revenues less cost of purchased services)/revenue) of 82 % was 1 % below the gross margin of the prior year quarter. In the first half of 2021, the expenses for goods and services purchased amount to mEUR 84.5 (previous year: mEUR 62.1). In the first half of 2021, the gross margin reached 82 %, which is 1 % below the prior year as well. The lower gross margin for the second quarter and for the first half of 2021 is mainly attributable to the hardware business in connection with the pharmacy rollout of the Telematics Infrastructure.
- Personnel expenses increased by 36 % to mEUR 122.3 compared to prior year (mEUR 90.0). Adjusted for special items, personnel expenses were 37 % higher than the prior year quarter. The directors' remuneration (now other expenses), which is no longer reported under personnel expenses due to the change in legal form, was more than offset primarily by acquisitions, which accounted for a total of mEUR 21.7 and thus 24 %. Many new hires in the areas of product management and sales as well as general wage and salary increases also contribute to the increase in personnel expenses. In the first six months, personnel expenses increased by mEUR 57.2 to mEUR 236.8, of which mEUR 39.8 resulted from acquisitions. The increase in personnel expenses in the first half of the year is mainly due to new hires and salary increases.
- Other expenses and net impairment losses on financial and contract assets were mEUR 8.7 higher than in the prior year and amounted to mEUR 38.1. Adjusted for special effects of M&A costs, other expenses and net impairment losses on financial and contract assets were mEUR 9.9 higher than in the prior year. The reason for this increase is higher expenses for server maintenance and the reporting of directors' remuneration under other expenses following the change in legal form. Other expenses and net impairment losses on financial and contract assets in the first half of the year were mEUR 77.0 and mEUR 16.6 above the prior year.

Depreciation of property, plant and equipment and right-of-use assets amounts to mEUR 9.1 in the second quarter, which is an increase of mEUR 1.4 (prior year: mEUR 7.7). The increase in depreciation of non-current assets is mainly due to higher depreciation on right-of-use assets (IFRS 16) and increased depreciation of own-used IT equipment.

Amortization of intangible assets increased by mEUR 6.2 to mEUR 15.5 in the second quarter, mainly due to higher amortization from purchase price allocations and higher amortization on self developed software.

Depreciation of property, plant and equipment and right-of-use assets amounts to mEUR 17.4 for the first half of 2021, which is an increase of mEUR 2.3 compared to prior year. Amortization of intangible assets increased by mEUR 15.3 to mEUR 34.0 in the first half of the year.

Amortization of intangible assets breaks down as follows:

kEUR	01.04.- 30.06.2021	01.04.- 30.06.2020	01.01.- 30.06.2021	01.01.- 30.06.2020

thereof from capitalized inhouse services	1,760	1,333	7,059	2,505

Finance income increased from mEUR 0.2 in the second quarter of 2020 to mEUR 0.6 in the second quarter of this year, mainly resulting from currency gains on loans as well as interest income on loans issued. For the half-year, financial income of mEUR 0.7 was generated, which is mEUR 0.3 lower than in the same period of the prior year.

The financial expenses are structured as follows:

kEUR	01.04.- 30.06.2021	01.04.- 30.06.2020	01.01.- 30.06.2021	01.01.- 30.06.2020

\* Adjusted for revenues of companies consolidated for the first time in the reporting period or of companies consolidated for the last time in the prior year period.

- The software business with physicians and dentists achieved revenues of mEUR 114.7 for the second quarter 2021, which corresponds to an increase of 24 % compared to the prior year. This increase is primary attributable to acquisitions, especially to the acquisition of eMDs Inc. in the USA.
- Inorganic Effects contribute with mEUR 19.4 to the revenues in the second quarter of 2021.
- Organically, revenues grew by 3 % which is mainly due to a strong European AIS business. In addition, a new module for linking dental and physician information systems to the electronic patient record (ePA) was successfully placed on the market.
- Recurring revenues in the AIS segment increase by 24 % to mEUR 87.4. The share of recurring revenues in relation to total revenues has not change compared to the prior year.
- Adjusted EBITDA of mEUR 28.6 is - 7 % below the second quarter of the prior year. The EBITDA margin declined because of increased investments in development activities.

### Hospital Information Systems (HIS)

in % of revenues	21%	16%		18%	14%	

\* Adjusted for revenues of companies consolidated for the first time in the reporting period or of companies consolidated for the last time in the prior year period.

- The acquisition of the IT Healthcare portfolio from Cerner Corporation at the end of the second quarter of 2020 was the main contributor to the strong revenue growth of 86 % in the HIS segment.
- In addition, the HIS segment also achieved excellent organic growth. Adjusted for inorganic effects of mEUR 23.6, the increase amounts to 15 %. This is due to a very good development in the German and Polish project business as well as a strong laboratory business.
- Recurring sales increased by 80 % to mEUR 39.2 due to acquisitions. In relation to total sales, recurring sales increased less strongly.
- Adjusted EBITDA of mEUR 13.2 is significantly higher than the previous year's figure of mEUR 5.4, mainly due to acquisitions.

## Consumer and Health Management Information Systems (CHS)

\* Adjusted for revenues of companies consolidated for the first time in the reporting period or of companies consolidated for the last time in the prior year period.

- Revenues in the CHS segment increased by 41 % to mEUR 35.5.
- Adjusted for inorganic effects, organic revenue growth of 42 % was largely attributable to the pharmacy rollout of the Telematics Infrastructure business unit. Adjusted for the growth of the telematics infrastructure, there was strong organic growth of 10 %, which was attributable to the very good data business (Intermedix).
- Adjusted EBITDA of mEUR 5.7 is 31 % higher than in the previous year. The EBITDA margin is lower than in the previous year, due higher hardware revenues as part of the ongoing telematics infrastructure rollout and increased growth investments.

## Pharmacy Information Systems (PCS)

The largest changes in assets are as follows:

- Increase in intangible assets by mEUR 68.6 to mEUR 1,156.7 mainly due to acquisitions as well as the capitalization of self developed software.
- Increase in rights-of-use assets by mEUR 4.5 to mEUR 49.1, primarily due to new leases and extensions of real estate leases.
- Increase of Investments in associates and joint ventures (valued at-equity) and other investments by mEUR 14.5 to mEUR 16.5, mainly due to the acquisition of Aatlanta group as of June 30, 2021, which was not fully consolidated as of the balance sheet date and the acquisition of a 30 % interest in 4K S.r.l. in Italy.
- Increase in inventory by mEUR 2.9 to mEUR 21.1. Inventories mainly comprise goods for CGM's hardware and peripheral equipment business as well as components of the Telematics Infrastructure.
- Increase in current other non-financial assets by mEUR 12.3 to mEUR 36.7. This mainly results from prepaid expenses and an increase in the pre-tax surplus.
- Increase of cash and cash equivalents from mEUR 75.9 at year-end 2020 by mEUR 14.6 to mEUR 90.5. Cash and cash equivalents mainly result from the overall strong Free Cash flow in the first half of 2021.

All other assets were subject to minor changes in absolute figures as of the first half of 2021.

Group equity decreased from mEUR 638.9 as of December 31, 2020 to mEUR 576.6 as of June 30, 2021. The change in equity results mainly from the repurchase of treasury shares in the first half of 2021, the dividend payment, adjustments to other comprehensive income (currency translation and employee benefits) and, in the opposite direction, from net income.

The following significant changes occurred in current and non-current liabilities compared to year-end 2020:

- Increase of current and non-current liabilities to banks by mEUR 133.8 from mEUR 496.4 to mEUR 630.2 due to borrowings.
- Increase of current contract liabilities by mEUR 54.2 from mEUR 63.9 to mEUR 118.1. This increase is mainly due to advance payments for software maintenance contracts.
- Decrease in trade payables by mEUR 6.8 from mEUR 64.5 to mEUR 57.7.

All other current and non-current liabilities were subject to minor changes in absolute figures as of the first half of 2021.

In the second quarter of 2021, free cash flow amounts to mEUR - 5.8 compared to mEUR - 3.2 in the same period of the prior year. The negative development of the free cash flow in the reporting period results, among other things, from the harmonization of bonus payments in the group already mentioned in the prior quarterly report.

At mEUR 64.6, free cash flow in the first six months is mEUR 16.8 higher than in the same period last year.

The derivation of free cash flow is shown below:

Cash flow from financing activities amounts to mEUR 81.5 in the second quarter of 2021 (prior year: mEUR 306.6). The mEUR 225.1 lower cash flow from financing activities is largely due to the capital increase and placement of treasury shares in the second quarter of 2020. This is offset by a mEUR 139.7 increase in net borrowings compared to the prior year.

In the first half of 2021, financing activities generate cash inflows of mEUR 24.2 (prior year: mEUR 279.2).

As of June 30, 2021, cash and cash equivalents amount to mEUR 90.5 (prior year: mEUR 362.8). The reported cash and cash equivalents also include restricted cash.

Net debt as at June 30, 2021 is mEUR 599.0, mEUR 119.1 higher than the net debt of mEUR 479.9 as at December 31, 2020. Leverage is 2.55 (December 31, 2020: 2.04) and thus meets the requirements of the existing credit agreement.

## REPORT ON OPPORTUNITIES AND RISKS

As a company with international operations, CompuGroup Medical is exposed to a number of risks. These risks include, in particular, strategic and macroeconomic risks as well as operational, legal and political risks. Furthermore, the group is exposed to risks arising from project business, key personnel and financial risks.

The technological capabilities and market knowledge within the group are suitable for assessing risks and taking adequate measures to manage risks. The early identification, analysis and careful handling of risks is ensured at CompuGroup Medical by a uniform risk management system integrated throughout the group. The design of the risk management system and a description of the material risks were explained in detail in the Annual Report 2020, which can be downloaded at [www.cgm.com](http://www.cgm.com).

The assessment model for data privacy risks, which was renewed in the 2019 financial year, was revised again in the 2020 financial year to take account of the assessment requirements of the specialist area. However, neither this concretization of data privacy risks nor other changes resulted in individual risks or combination effects that threaten the continued existence of the company. The effects of the COVID-19-pandemic are discussed separately in the respective chapter of the same name.

## GUIDANCE FOR CGM GROUP

### Group

The guidance for the financial year 2021 published on February 4, 2021 is confirmed.

For 2021, CGM continues to expect revenues in a range of mEUR 1,000 to mEUR 1,040, corresponding to revenue growth of 19 % to 24 %.

Recurring revenues are expected to be above 60 %.

Organic growth is expected in a range of 4 % and 8 %.

Adjusted EBITDA is expected in a range of mEUR 210 to mEUR 230.

Adjusted earnings per share (diluted) are expected to be between EUR 1.70 and EUR 1.95.

Capex is expected to be in the range of mEUR 70 to mEUR 80.

Free Cash flow is expected to be above mEUR 80.

### Segments

- AIS revenues are expected to be in the range of mEUR 485 to mEUR 500.
- Revenues for the HIS segment are expected to be in the range of mEUR 240 to mEUR 250.
- The CHS segment is expected to generate revenues between mEUR 160 and mEUR 170.
- The PCS segment is expected to generate revenues of mEUR 115 to mEUR 120.

The above guidance for the current financial year was prepared in January 2021 and does not consider any effects from currently pending acquisitions and potential transactions in the course of the financial year 2021. The guidance for 2021 represents management's best estimate of future market conditions and the development of CompuGroup Medical's business segments in this environment and may be affected in particular by delays in the implementation of the Telematics Infrastructure for which the Company is not responsible. In addition, the further impact of the global COVID-19-pandemic cannot be fully assessed. The 2021 guidance could also be influenced by exchange rate effects (in particular changes in the U.S. dollar exchange rate against the Euro).

CompuGroup has been reporting adjusted key figures for the operating result (EBITDA) and earnings per share since the financial year 2020. These key figures are not defined under International Financial Reporting Standards (IFRS) and should be regarded as supplementary information. Adjusted EBITDA and adjusted earnings per share exclude effects from major acquisition and disposal of subsidiaries, business units and investments (including effects from the subsequent measurement of contingent purchase price liabilities), impairment losses and write-ups on investments, effects from the acquisition, construction and disposal of real estate, impairment losses and write-ups on owner-occupied property, as well as expenses in connection with share-based payment programs for Managing Directors, taxes attributable to the above effects and other non-operating or non-periodic non-recurring effects.

## GENERAL ACCOUNTING PRINCIPLES AND MEASUREMENT METHODS

### General Accounting Principles

This condensed half-year financial report is a consolidated financial statement as of June 30, 2021. Unless otherwise specified, all amounts are provided in thousands of euros (kEUR) or millions of euros (mEUR). Due to rounding, totals and percentages presented in this report may not add up precisely to the totals provided.

The half-year financial report as of June 30, 2021, has been prepared like the consolidated financial statements as of December 31, 2020, in accordance with the International Financial Reporting Standards (IFRS) as adopted by the EU. In accordance with IAS 34, a condensed scope of reporting has been chosen for the presentation of the half-year financial report as of June 30, 2021, compared to the annual financial statements.

With the exception of the standards to be applied for the first time and the revised standards described below, the same accounting principles were applied throughout the group in the half-year financial report as in the consolidated financial statements as of December 31, 2020. For further information, please refer to the consolidated financial statements as of December 31, 2020. These interim financial statements and interim management report have not been audited or reviewed by a statutory auditor.

The overview below gives information about the relevant foreign exchange rates for the condensed half-year financial report:

Unless otherwise stated, all information and explanatory notes in this report refer to the second quarter of 2021 and 2020, i.e. the three-month period from April 1 to June 30 (Q2), and all percentage changes refer to the respective year-on-year comparison. There are no significant cyclical fluctuations in the course of business. In the second half of the year, the business volume of CompuGroup Medical SE & Co. KGaA normally tends to be higher than in the first half of the year.

In preparing the half-year financial report, management has made estimates and assumptions in the application of accounting policies that may affect the reported amounts of assets and liabilities as well as income and expenses. Although these assumptions and estimates have been made to the best of the managing directors' knowledge, actual results may differ from these estimates.

The main assumptions being used for preparing the consolidated half-year financial report are the same as those used for the preparation of the consolidated financial statements as at year-end December 31, 2020, except for new standards to be applied in the current financial year. Furthermore, assumptions have been made for the current financial year 2021 in the determination of the personnel expenses, the provisions for post-employment benefits and anniversaries and for the tax accruals of the current financial year.

### New and revised standards to be applied for the financial year 2021

CompuGroup Medical SE & Co. KGaA has implemented all accounting standards adopted by the EU and required to be applied from January 1, 2021.

Standard (Issue date)	Subject matter:	Effective for financial years beginning on or after (EU)
Amendments to IFRS 4: Insurance Contracts – deferral of IFRS 9 (June 25, 2020)	The effective date of IFRS 17, which will replace IFRS 4, is now January 1, 2023 and the specified expiry date of the temporary exemption from the application of IFRS 9 in IFRS 4 has been deferred to 1 January 2023.	January 1, 2021
Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16: Interest Rate Benchmark Reform - Phase 2 (August 27, 2020)	The new accounting requirements are intended to support companies in applying IFRS in connection with changes in contractual cash flows or hedging relationships due to the IBOR reform. Effects may arise from a new calculation logic for interest when a benchmark interest rate for the calculation of interest on a financial asset is replaced by an alternative benchmark rate.	January 1, 2021

In other respects, the same accounting policies and consolidation principles have been applied in preparing the half-year financial report and the comparative figures for the prior year as in the consolidated financial statements 2020.

### Subsequent application of Standards, Interpretations and Amendments that have already been endorsed by the EU

There are no standards, interpretations and amendments to standards to published standards that have been adopted by the EU but are to be applied at a later date.

**Subsequent application of Standards, Interpretations and Amendments that have been published by the IASB but not yet adopted into European law**

The IASB and IFRIC have issued further standards, interpretations and amendments whose application is not yet mandatory in the EU as of January 1, 2021. The application of these IFRS and IFRIC is conditional upon their pending endorsement by the EU.

Standard (Issue date)	Subject matter	Effective for financial years beginning on or after (EU)
Amendments to IFRS 3: Business Combinations (May 14, 2020)	Changes to update an outdated reference without significantly changing the rules in the standard	January 1, 2022
Amendments to IAS 16: Property, Plant and Equipment (May 14, 2020)	Changes in pre-use income arising from the disposal of items produced while putting an item of property, plant and equipment into the location and condition necessary for it to be capable of operating in the manner intended by management	January 1, 2022
Amendments to IAS 37: Provisions, Contingent Liabilities and Contingent Assets (May 14, 2020)	The amendments deal in particular with costs that an entity should include as costs of performing a contract when assessing whether a contract is unfavourable.	January 1, 2022
Annual Improvements 2018-2020 (May 14, 2020)	The annual improvement process concerns the following standards: IFRS 1, IFRS 9, IFRS 16, IAS 41.	January 1, 2022
IFRS 17 (May 18, 2017); including amendments to IFRS 17 (June, 25 2020)	This standard makes a consistent international accounting standard for insurance businesses available. The objective is to raise transparency and comparability of insurance accountings.	January 1, 2023
Amendments to IAS 1: Presentation of Financial Statements (January 23, 2020 and July 15, 2020)	The amendments to the classification of liabilities as current or non-current affect only the reporting of liabilities in the presentation of the financial position – not the amount or timing of the recognition of assets, liabilities, income or expenses or the related disclosures made by entities.	January 1, 2023
Amendments to IAS 1: Disclosure of Accounting policies (February 12, 2021)	The amendments aim to ensure that material information relating to accounting policies is disclosed in the financial statements rather than explaining significant accounting policies. Information about accounting policies is material, if users of the financial statements need it to understand other material information in the financial statements.	January 1, 2023
Amendments to IAS 8: Definition of Accounting Estimates (February 12, 2021)	The amendment is intended to make the distinction between changes in accounting policies and changes in accounting estimates clearer and easier to understand. Changes in accounting policies must generally be applied retrospectively, while changes in accounting estimates must be applied prospectively.	January 1, 2023
Amendments to IFRS 16: Covid-19-related Rent Concessions (March 31, 2021)	The IASB amended IFRS 16 Leases in May 2020 to provide lessees with relief from assessing whether a COVID-19-related lease concession constitutes a lease modification. As the impact of the COVID-19-pandemic is ongoing and significant, the relief period has been extended to June 30, 2022.	IASB effective date: April 1, 2021 Not yet endorsed by EU
Amendments to IAS 12: Deferred Tax related to Single Transactions (May 7, 2021)	The main amendment for deferred taxes related to assets and liabilities arising from a single transaction is an additional exemption regarding IAS 12.15(b) and IAS 12.24. The amendment clarifies how entities account for deferred taxes on transactions such as leases and decommissioning obligations.	January 1, 2023

The possibility of an early application for individual standards is given. CompuGroup Medical SE & Co. KGaA does not make use of the possibility of an early application of these standards. CompuGroup Medical SE & Co. KGaA is currently examining the effects of the first-time adoption of these standards and amendments.

The application of the other standards, amendments and interpretations is not expected to have any material impact on the half-year financial report.

## SELECTED EXPLANATORY NOTES

### Scope of consolidation

The IFRS half-year financial statement as of June 30, 2021 includes the financial statements of CompuGroup Medical SE & Co. KGaA and the companies controlled by the company (subsidiaries) as of June 30, 2021. The consolidation begins on the date on which the possibility of control exists and ends when the possibility of control no longer exists. Compared with December 31, 2020, the scope of consolidation has changed as follows:

Changes in scope of consolidation	Germany	Foreign countries	Total
CompuGroup Medical SE & Co. KGaA and consolidated subsidiaries:			
As at January 1, 2021	32	63	95
Additions	4	4	8
Disposals / Merger	2	1	3
<b>As at June 30, 2021</b>	<b>34</b>	<b>66</b>	<b>100</b>

The disposals from the scope of consolidation result from the intragroup merger of BWG Computer Systeme GmbH and CGM Medistar Systemhaus GmbH into CGM Systemhaus GmbH (formerly Turbomed Vertriebs- und Service GmbH), all in Germany and the merger of Schuyler House Inc. into CompuGroup Medical Inc. in the USA.

The additions result from CGM's acquisition in 2021 of the already merged BWG Computer Systeme GmbH, the Meta-it GmbH, the VISUS Health IT GmbH, and the VISUS IT Services GmbH in Germany. In addition, there are the foreign acquisitions of the VISUS IT Solutions AG in Switzerland, the Portavita B.V. and the MGRID B.V. in the Netherlands, as well as the Portavita LLC in Russia.

Additions from business combinations – together with other business combinations with no impact on the scope of consolidation – are shown in the table below based on the values at the time of acquisition with their impact on the consolidated financial statements.

### **Associated companies:**

The goods and services provided to associated companies are mainly related with MGS Meine Gesundheit-Services GmbH, as in the prior year. Also, receivables comprise especially to MGS Meine Gesundheit-Services GmbH in the amount of mEUR 1.1.

### **Compliance with payment obligations and financial covenants**

On January 28, 2020, CGM took out a new credit facility to ensure future liquidity of mEUR 1,000 with a term of at least five years; the facility comprises a revolving multi currency credit facility (RCF) of mEUR 600 and a mEUR 400 term loan (TLF). In addition, the loan is used to finance general corporate purposes and acquisitions. The group of underwriters includes BNP Paribas, Commerzbank, Deutsche Bank, Landesbank Baden-Württemberg, SEB and Unicredit. The syndicated loan has a total term of five years with two renewal options of one year each for the revolving credit facility. The first option was exercised in January 2021.

The interest rate is based on EURIBOR (LIBOR for foreign currency loans) for the selected interest period plus a margin that can change in contractually agreed stages in line with the leverage ratio. As at June 30, 2021 there was a margin of 0.95 % (TLF) and 0.65 % (RCF).

As at June 30, 2021, the TLF was utilized in full in the amount of mEUR 400. The RCF of mEUR 600 was utilized in the amount of mEUR 155. The loans are subject to compliance with a financial covenant (leverage). Various German group companies have issued joint and several payment guarantees for this syndicated credit facility (default liability for nonpayment by CompuGroup Medical SE & Co. KGaA).

In addition, loan commitment fees in the total amount of mEUR 3,3 were incurred in 2020, which are recognized in profit or loss using the effective interest method over the term of the loan agreement. In order to hedge the TLF against significant changes in interest rates, an interest rate cap with a 10-year term was concluded in 2021.

In the 2021 financial year, CompuGroup Medical SE & Co. KGaA fully complied with all financial covenants in the existing loan agreements.

### **Contingent liabilities, guarantees and other commitments**

During the financial year 2021, contingent liabilities, guarantees and other commitments did not change significantly compared to December 31, 2020.

### **Significant post balance sheet events**

#### **KoCoBox MED+ obtains approval as an electronic health record connector**

On July 22, 2021 CGM received approval from gematik for KoCoBox MED+ as a connector for the electronic health record (so-called ePA – elektronische Patientenakte). Following installation of the ePA upgrade, KoCoBox MED+ supports the electronic health record application and the digital convenience signature for all users who are connected to the telematics infrastructure via KoCoBox MED+.

### **Segment reporting**

In accordance with IFRS 8 „Operating Segments“ the activities of CompuGroup Medical SE & Co. KGaA are divided into operating segments for segment reporting purposes.

Following business segments form the basis of the segment reporting. The range of services offered by these four business segments, can be presented as follows:

- AIS: Development and distribution of practice software solutions as well as the provision of services for registered doctors and dentists. In addition, Internet Service Providing services are provided to physicians and other healthcare participants.
- HIS: Development and distribution of hospital software solutions as well as the provision of services
- CHS: Combines the business units Consumer, Pharma, Insurance, Data & Analytics, and Connectivity including the telematics infrastructure with the aim of connecting healthcare providers (physicians, dentists, hospitals and pharmacists) with other key market participants in the healthcare sector, such as payers, pharmaceutical companies, and research institutions
- PCS: Development and distribution of software solutions as well as the provision of services for pharmacists

On the basis of the reporting system, the managing directors, as chief operating decision makers, assess the performance of the four reportable segments and make decisions about the allocation of resources. For the evaluation and assessment of the operating segments, the Group management uses the earnings indicator “earnings before interest, taxes, depreciation and amortization (EBITDA)”, which thus represents the segment result.
