The guidance is based on the management's best estimate of future market conditions and the development of the business segments of CompuGroup Medical in this environment; it may be influenced by delays or changes in the implementation of the Telematics Infrastructure that are beyond the control of the company. Moreover, uncertainty remains with regard to the further impact of the global economic environment and the Russia-Ukraine war. The guidance may also be influenced by foreign exchange effects (especially changes in the USD/EUR conversion rate).
