

WEB PORTAL

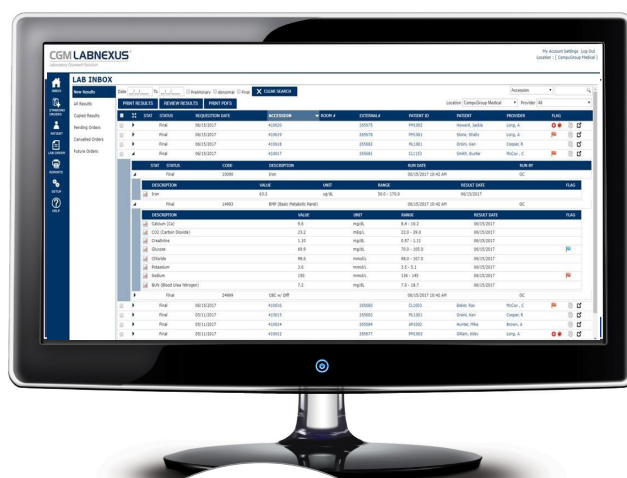

CGM LABNEXUS®
Laboratory Outreach Solution

The **CGM LABNEXUS®** outreach solution is designed to support laboratories with an easy-to-use, HIPAA-compliant web portal. Providers can access laboratory data anytime, anywhere. The portal provides labs with limitless growth opportunities as they compete in targeted markets.

CGM LABNEXUS satisfies the need to connect with providers through a secure, browser-based portal for result review and order entry. The portal integrates seamlessly with **CGM LABDAQ®** and other laboratory information systems.

CGM LABNEXUS WEB PORTAL

CGM LABNEXUS simplifies the way providers submit orders and receive results. Quick, web-based access to results improves client satisfaction and loyalty. CUSTOMIZE the web portal with a laboratory logo to PERSONALIZE and ENHANCE lab branding and market image.

The improved communication between you and your clients will decrease turnaround times. Labs can run more tests, grow business by adding more clients, and increase laboratory revenue.

The intuitive web portal includes:

- Online access, 24/7
- Lab Inbox for new results
- Graphs of previous results
- Patient reports, including cumulative reports
- Notification via e-mail or text that critical or stat results are available for review
- Specimen labeling to ensure patient safety
- Medical necessity and frequency checking to ensure timely reimbursements
- Client-specific test menus to simplify ordering
- Provider and patient signature capture for requisitions
- AOE (Ask at Order Entry) questions to collect required information for testing
- Manifest reports to ensure all specimens are available for shipment/pickup
- Fast and easy implementation
- Easy-to-learn user interface
