CGM MEDICUS WEB

Laboratory Information System

CompuGroup Medical is a leader in e-health technology with an established, worldwide presence and clients in more than 60 countries.

CLOUD-BASED LIS
FOR YOUR BUSY OFFICE

CGM MEDICUS WEB is a simple, cost-effective laboratory information system for waived and moderately complex physician office labs. Run a more efficient and connected lab without the cost of an on-premise server or the complexity of a larger, enterprise-style system.

Access **CGM MEDICUS WEB** securely from anywhere. Connect to your EHR software and analyzers, and give your staff an intuitive workflow for ordering tests, validating results, reviewing patient history, and managing quality control.

DID YOU KNOW?

CompuGroup Medical offers leading EHR, practice management, EDI, and billing services, too. Consolidate your efforts with one trusted, globally recognized vendor.

KEY BENEFITS AT A GLANCE

- **Cloud-based & secure**—no onsite server hardware required
- **Simple & user-friendly**—easy for clinical staff to learn and use, even without dedicated lab technologists
- **Cost-effective** with minimal upfront investment and infrastructure required
- Easy EHR and analyzer **connectivity**—streamlines order-to-result workflows and reduces manual entry
- **Compliant & organized** with built-in QC tools, audit trails, and reporting

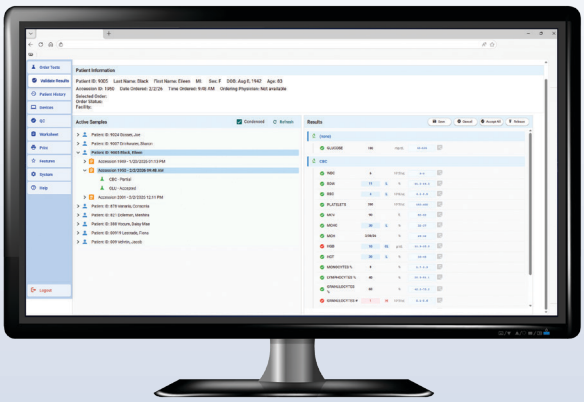
CGM MEDICUS WEB is ideal for:

- Physician office labs with waived or moderately complex testing
- Clinics and multisite practices with relatively simple test menus
- Labs where doctors, nurses, MAs, and phlebotomists work directly with lab software
- Facilities processing a low-to-moderate daily volume

CGM MEDICUS WEB keeps your lab running smoothly and your results flowing reliably into the EHR.

Synchronizing Healthcare

CompuGroup Medical



Quickly place orders, validate results, and review patient history and reports.

CGM MEDICUS WEB makes it easy.
