

CGM APRIMA

EHR and Practice Management

More time with patients.
Less time with paperwork.

Rediscover the joy of practicing medicine

CGM APRIMA fits how you already work—not the other way around. One integrated, award-winning system for EHR, practice management, and billing, all designed to get out of your way.

CGM APRIMA +

Your EHR, on any device. Desktop, tablet, or smartphone—Apple® or Android®.

No VPN. Just log in and go.

Imagine your EHR running at full speed.

Pair CGM APRIMA+ with options like CGM AMBI for AI-assisted charting and Patient Connect for telehealth.

All in sync. Accessible from anywhere, on any device.

Quality of Care

Timely follow-ups, electronic orders and results, built-in drug interaction checks.

Patient Satisfaction

Quick chart access keeps the conversation moving. Data trends help patients understand their own care.

Mobility

Work with or without a connection. Syncs automatically when you're back online.

Better Bottom Line

More accurate coding, fewer rejections, higher reimbursements.

Quality of Life

Chart faster with ambient AI and voice dictation. Spend evenings with family, not finishing notes.

Flexibility

Adaptive Learning follows your style—use our specialty template library, or let it adapt automatically.

Proven Track Record

Our EHR and practice management software, e-prescribing, and revenue cycle services have each won numerous industry awards.

ONC certified. MIPS/MACRA ready.

Considering a change?

- One database for EHR and practice management—no juggling systems
- Fast, guided implementation—easy to install, easy to learn
- One trusted vendor for EHR, billing services, EDI, and lab management
- Choose cloud-hosted or on-premise—whatever fits your practice
- Connects to HIE networks such as Carequality and CommonWell Health Alliance®

AI-enhanced—always evolving

CGM AMBI: Our ambient AI option listens during a patient visit and helps generate the structured note. Chart in minutes, not hours. All you have to do is review and approve.

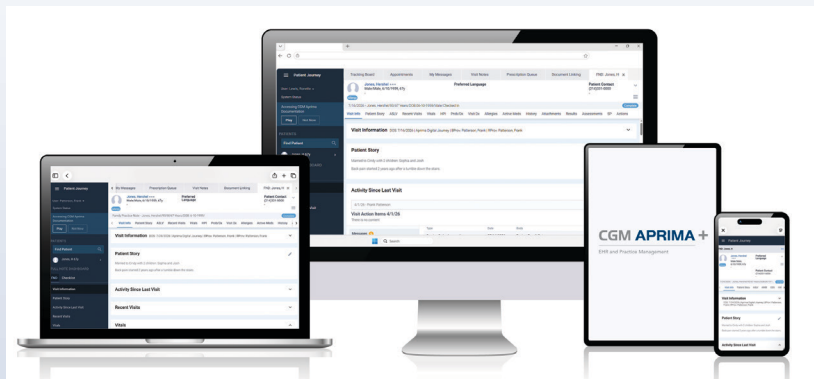

CGM INDEX.AI: Our advanced document management option automatically sorts, names, summarizes, and routes incoming faxes, scans, and other documents.

New AI-powered software options are being developed for **CGM APRIMA** on an ongoing basis. Ask us to learn more about what's new and what's next.

FROM A CGM AMBI USER

"CGM AMBI made a huge difference in the amount of time to document a visit. I was able to close all my notes before leaving the office. Instead of spending my evenings and weekends doing notes, I was able to spend more time with my family."

DR. JENNIFER RAHN

FROM A CGM APRIMA USER

"We have peace of mind that we have the best in the business helping us manage our patients. You want someone who you can trust and who uses this information to help you make even smarter business decisions."

ROSIE GAY, OPERATIONS
CHIPOLA MEDICAL ASSOCIATES
