

# PAIN MANAGEMENT

## CGM APRIMA

EHR and Practice Management

**CGM APRIMA** frees you from the constraints of templates with an intuitive interface designed to simplify your workflow of a patient visit. With **CGM APRIMA**'s Electronic Health Records (EHR), Practice Management (PM) and Revenue Cycle Management (RCM) solutions, Pain Management specialists enjoy improvements in quality of care, patient satisfaction, quality of life, and their bottom line.

**CGM APRIMA** offers Pain Management practices powerful solutions to boost productivity and efficiency.

### DOCUMENT PATIENT VISITS WITH LIGHTNING SPEED

- Create patient notes quickly and easily using the method you prefer; keyboard and mouse, dictation or voice recognition
- Use voice-to-text directly into structured notes fields to get E&M credit
- Eliminate up to 80% of point and click in the patient note

### EASIER DATA INPUT FOR REPETITIVE PROCEDURES

**CGM APRIMA** auto-learns treatment plans for your most common patient complaints, making it easy and fast to document your procedures and injections.

Enjoy a smart, sophisticated EHR system that seems to read your mind:

- The more frequently you make a particular diagnosis, the more likely it will appear first in your list of potential diagnoses
- Quickly identify orders written, services performed, plans covering the procedure and a timeline for a return visit

"Using **CGM APRIMA**, my ability to handle patients is up 30% — both volume and revenue — compared to where I was before. It's nothing short of incredible."

**MARGIE ANACAYA, MD**  
CENTRAL ARIZONA PAIN INSTITUTE\*

"I absolutely love doing my operation reports and hospital consultations in **CGM APRIMA**. This solution kills three birds with one stone: I'm able to complete my hospital work directly in **CGM APRIMA** for my records, and have it go to both the hospital and immediately to my billing department. It's a fabulous time-saver."

**DR. PAUL SCHWARTZ**  
SHASTA ORTHOPEDICS\*

## THESE BUILT-IN FUNCTIONALITIES ENABLE A MORE EFFICIENT PRACTICE

- Electronic prescribing of controlled substances
- Prior authorization by insurance companies and pharmacies
- **CGM APRIMA** handles Electronic Eligibility as well as Electronic Prescription Authorization (EPA); the time and resources needed to secure authorization is often minutes as opposed to days

## BETTER CARE COORDINATION BETWEEN YOUR PRACTICE AND THE COMMUNITY

- **CGM APRIMA** auto-generates letters to referring physicians including procedures you've performed and plans for treatment which can be sent via secure message or fax
- Electronic prescribing, including controlled substances, drives efficiency for providers and patients
- Interface with any lab for orders and results, and any hospital for labs, discharge summaries, demographics, and more

## ARIA RCM SERVICES: GET PAID FOR WHAT YOU'VE EARNED

As an optional service from **CGM APRIMA**, when your practice adopts **ARIA RCM Services**, we make sure that you receive all the income you've earned, holding ourselves accountable for ensuring you are paid promptly and fully. Best of all, our fees are aligned with your collections.

We don't simply process claims — we have extensive expertise in CMS Medically Necessary Rules, Denial Management, pre-payment audits, insurance recoupments, ICD-10, and Meaningful Use.

Practices that leverage **ARIA RCM Services** report substantial benefits:

- Increased collections: some customers see dramatic improvement in their collections; on average, practices gain 7-9%
- Faster payments: our RCM customers experience more than a 10% improvement over published MGMA survey data
- Higher revenues: Denied or underpaid claims pursued every time, every claim, boosting revenue up to 29%!
