

With **CGM APRIMA**, providers in sleep medicine practices save valuable time with every patient visit.

Built for the specifics of sleep medicine

- Document sleep history and sleep schedule, and order sleep studies directly
- Interface with sleep study diagnostic equipment—from EEG results to sleep apnea data—so results flow in automatically
- Use the **Patient Portal**'s Epworth Sleepiness Scale so patients can self-report sleep issues before their visit
- Order BiPAP and CPAP devices and supplies, with built-in guidance on what bills to the patient versus insurance
- Bill time for tech fees associated with home and lab studies

"We have been using CGM APRIMA for almost six years and could not be happier with our choice. The efficiency and ease of use of the program allows us to monitor all divisions of our business."

Streamline pre-visit intake

- Let patients complete a pre-visit questionnaire covering their sleep symptoms, with follow-up questions that adapt based on their answers
- Download all patient responses into the EHR in one click—no paper forms to scan

Speed and efficiency at the point of care

- Chart by symptom, following the flow of your exam
- Rely on Adaptive Learning to pick up your preferences as you work

Supporting the patient journey

With options for your EHR and complementary software and services by CompuGroup Medical, you can support sleep medicine patients well beyond the appointment itself.

- Step up patient engagement with the optional **CGM CONNECTION** for reminders and outreach
- Offer a telehealth follow-up with the integrated **Patient Connect** to review study results or check on therapy adherence
- Ease the cost of CPAP/BiPAP supplies for patients with the optional **CGM PAY**, including payment plans
- Route incoming sleep study reports and referrals automatically with the optional **CGM INDEX.AI**, easing coordination between labs, DME suppliers, and referring physicians
- Hand off prior authorization and DME billing for CPAP and BiPAP therapy to the award-winning **ARIA RCM Services** team
