LIS INTEGRATION

SEAMLESS INTEGRATION

Streamline the billing process for facilities performing laboratory testing with the combination of **CGM LABDAQ®** Laboratory Information System and **CGM DAQbilling**™.

The seamless integration between the billing system and the laboratory information system saves time for physician offices, clinics, and reference laboratories.

From testing to invoicing, combining **CGM LABDAQ** and **CGM DAQbilling** will improve your workflow and ensure accurate and faster reimbursements.

Customize your testing and billing processes with customized rules to fit your business model and workflow. Use this exclusive pairing of CompuGroup Medical software to increase automation, reducing the risk of errors and improving productivity.

"Our practice has been using the **CGM LABDAQ** laboratory information system for more than 10 years, so when the time came to make the move to a new practice management software, **CGM DAQbilling** was on the top of our list.

After a handful of software vendors' demos, it became clear that **CGM DAQbilling** was the product that would suit our specific needs perfectly as a multiple physician, internal medicine practice looking for software that worked with our budget.

CGM DAQbilling was easy to learn and use and saved us time and money. After going live with **CGM DAQbilling**, we wondered why we didn't do it sooner."

Synchronizing Healthcare

CGM **CompuGroup Medical**

Key Features

- Secure, HIPAA-compliant data hosting

- Automated insurance payment posting with Electronic Remittance Advice (ERA)

- Insurance Eligibility Verification (IEV) to verify whether to collect cash up front or send claims to insurance companies

- Automated billing processes for improved efficiency and increased reimbursements

- Comprehensive reporting

- Client invoices that can be printed and mailed to third-party nursing homes, practices, and more

Benefits

- Transfer data automatically between **CGM LABDAQ** and **CGM DAQbilling**, eliminating duplicate data entry of demographics, insurance, and other patient information

- Avoid missed or incorrectly entered claims by capturing patient requisitions electronically

- Learn both systems easily due to a similar look and feel

- Pay as you go with **CGM DAQbilling** pricing that includes unlimited users, access, data storage, updates, upgrades, clearinghouse usage, free paper claim mailing, and CPT and DX databases

- No costs for creating new interfaces to third-party software when integrating **CGM LABDAQ** and **CGM DAQbilling**

- Eliminate paper and manual claim processing with **CGM DAQbilling** and its HL7 interface between the LIS and practice management system
