INSURANCE
ELIGIBILITY VERIFICATION

CGM DAQbilling™
Practice Management Solution

Benefits

Are you losing revenue due to invalid or inaccurate patient insurance eligibility data? Insurance Eligibility Verification (IEV) improves your claims acceptance rate by allowing your practice to confirm patient insurance coverage prior to rendering healthcare services.

Traditional patient eligibility and insurance verification by phone is a time-consuming task that takes your staff away from providing quality care.

When you subscribe to IEV with **CGM DAQbilling™**, you'll have access to a large network of payers and will save time through real-time verification of patient eligibility and benefits information.

See the monthly savings for a solo-physician practice with average volume:

- Insurance validation prior to patient visit
- Increased opportunity to collect funds at time of service
- Streamlined front-office workflow
- Reduced rate of claim rejection due to invalid or expired insurance
- Better access to patient benefit information

MONTHLY EXPENSE	NO VERIFICATION	MANUAL VERIFICATION	IEV
Lost Revenue	$4,800	$0	$0
Labor & Payer Processing		$1,210	$0
Automation			$117
Total Practice Cost Per Physician	$4,800	$1,210	$117

Annual Savings: $56,196
