CGM **LABDAQ**®

Laboratory Information System

FOR TOXICOLOGY

CGM CompuGroup™ Medical

CGM LABDAQ® TOXICOLOGY WAS DESIGNED TO MEET THE NEEDS OF DRUG TESTING IN REFERENCE LABS, CORRECTIONAL FACILITIES, AS WELL AS PAROLE AND PROBATION PROGRAMS.

CGM LABDAQ TOXICOLOGY IS A USER FRIENDLY SYSTEM WITH THE FUNCTIONALITY REQUIRED BY LABORATORIES CONDUCTING DRUG TESTING.

ADVANCED REPORTING ALLOWS YOU TO VIEW STATISTICAL DRUG DATA AND ENSURES THAT CHAIN OF CUSTODY REQUIREMENTS ARE MET

The advanced reporting available in CGM LabDAQ Toxicology includes chain of custody reports as well as a variety of statistical drug reports and positive summary reports.

CGM LABDAQ IS A SCALABLE SOLUTION WITH THE FUNCTIONALITY TO ACCOMMODATE MULTI-LEVEL, MULTI-SITE FACILITIES

CGM LabDAQ Toxicology can be expanded to accommodate multi-site facilities and customized to meet specialized requirements of multi-level organizations (i.e. regions, districts, supervisors, parole officers, and donors) performing drug tests.

CGM LabDAQ easily accommodates facilities performing both clinical and toxicology testing. Test menus can be established for qualitative and quantitative results, allowing users to choose from multiple result formats.

RULES TRIGGER REFLEX TESTS AND NOTIFY USERS WHEN RESULTS ARE SUSPECT

The system assists with inspections, as all patient results, Quality Control and corrective actions are documented and stored electronically. Intelligent rules automatically order confirmatory testing based on screening test results.

LABORATORY RESULTS ARE DOCUMENTED, STORED AND CAN BE TRANSFERRED ELECTRONICALLY TO OTHER SYSTEMS

CGM LabDAQ was designed to interface with other systems, such as criminal justice management, donor tracking, billing and other data systems.

SEE WHAT OUR CLIENTS ARE SAYING ABOUT CGM LABDAQ TOXICOLOGY...

"QUALITY CONTROL IN CGM LABDAQ MANAGES MY MULTIPLE TESTING SHIFTS 24/7 TO ENSURE OUR RESULTS ARE ACCURATE AND WILL HOLD UP IF EVER CHALLENGED IN COURT. CGM LABDAQ PROVIDES US WITH A SUITE OF QC MANAGEMENT REPORTS TO KEEP US RUNNING EFFICIENTLY AND IDENTIFIES ANY ISSUES THAT MAY BE TRENDING OUT OF RANGE. ALL OF OUR REPORTS ARE EASY TO READ AND ARE FORMATTED CONSISTENTLY."

LIS DIRECTOR
J2 LABORATORIES

A SPECIALIZED SOLUTION JUST FOR **TOXICOLOGY LABORATORIES.**

TOXICOLOGY SPECIFIC FEATURES INCLUDE:

- Targeted reports for managing the testing of drugs of abuse (i.e. positive summary and test statistics)

- Comprehensive audit trail of user activity

- Quality Control module to support regulatory compliance

- Chain of custody reporting, including collector information

- Automated rules to alert if a specimen is suspected of adulteration

- Reflex validity testing to ensure sample integrity

- Automated ordering of confirmatory testing based on cut off values for screening test results

- Efficient workflow for rapid entry of manual test results

- Processing results from multiple analyzers is consolidated onto one screen

Additional options include:

- Data Miner utility allows for the ability to query data for statistical analysis

- Scanning functionality will permanently store required documentation as an attachments

CGM LabDAQ Toxicology is designed to meet the needs of a multi-level organization...
