

The Power Play for Practice Management

CGM LYTEC is a trusted and affordable practice management solution that simplifies the way you run your practice.

With each release, **CGM LYTEC** gets better. Even more powerful. Every year, we add new layers of functionality and usability.

Discover some of the benefits of upgrading to **CGM LYTEC 2026**.

Flexible, online patient appointments and scheduling

New to **CGM LYTEC 2026**, practices can offer online scheduling to meet rising patient expectations and help keep the daily schedule full.

With the flexible, online scheduling for **CGM LYTEC**, administrators can:

- Offer open slots by clinic
- Configure settings to control patient options, such as limiting a patient to scheduling a maximum number of appointments during a specified time period
- Designate days, times, providers, and available appointment types
- Automate scheduling or require administrative approval
- Allow patients to add themselves to the Wait List

Create a better patient journey with **CGM LYTEC 2026**. Leverage online appointment scheduling and offer a modern, patient-focused experience.

Improved patient search

By popular demand, the patient search function has been expanded to allow users to search by a patient's insurance ID. CGM LYTEC 2026 is smart enough to find a given patient even if the ID entered is actually the patient's secondary or tertiary insurance.

Improved AR tracker

CGM LYTEC 2026 includes improvements to the AR tracker. Users can choose from saved AR filters, and now they can choose whether or not to automatically start with the filters they used during their previous session.

Easier online patient payments

With CGM LYTEC 2026, you can add a QR code to patient statements, making payments easier than ever. When patients scan the QR code, they're instantly taken to a secure, mobile-friendly online payment page—no manual entry required.

This convenient feature, available in conjunction with our eMEDIX clearinghouse, streamlines the payment process, reduces barriers for patients, and helps your practice get paid faster.
